the President's enthusiastic endorsement would have its effect at the election November 6.

Special significance was placed by many of the New York delegation on the fact that the President's advocacy of suffrage had not been affected by the tactics of militant suffragists of the Woman's Party.

Officials of the National American Woman Suffrage Association declared their future plans will be determined largely by the New York results. If suffrage carries, they said, suffrage campaigns would be results. If suffrage carries, they said, suffrage campaigns would be started within the next year in many States. If New York and Ohio, where there also is to be a vote next month, defeat suffrage, efforts may be centered on the Federal amendment, pending before Congress. A programme will be determined at the convention here December 12.

THE ADDRESS.

The Convention here December 12.

The President, addressing the suffragists, said:

"It is with great pleasure that I receive you. I esteem it a privilege to do so. I know the difficulties which you have been working under in New York State, so clearly set forth by Mrs. Whitehouse, but in my judgment those difficulties cannot be used as an excuse by the leaders of any party or by the voters of any party for neglecting the questions which you are pressing upon them. Because, after all, the whole world now is witnessing a struggle which goes deeper and touches more of the foundations of the organized life of men than any struggle that has ever taken place, and no settlement of the questions that lie on the surface can satisfy a situation which requires that the questions which lie underneath and at the foundation should also be settled and settled right. I am free to say that I think the question of woman suffrage is one of those questions which lie at the foundation.

"The world has witnessed a slow."

"The world has witnessed a slow political reconstruction, and men have generally been obliged to be satisfied with the slowness of the process. In a serie, it is wholesome that it should be slow because then it is solid and sure, but I believe that this war is going so to quicken the convictions and the consciousness of mankind with regard to political questions that the speed of reconstruction will, be greatly increased. And I believe that just because we are quickened by the questions of this war we ought to be quickened to give this question of woman suffrage our immediate consideration.

General Staff Reaches Momentous Decision-Million Americans for Pershing's Spring Drive.

[BY DIRECT WIRE-EXCLUSIVE DISPATCH.] WASHINGTON BUREAU OF THE TIMES, Oct. 25.—About 500,000 men of the National Army, most of whom are now in the cantonments throughout the country, will be in France by February 1, or soon after that date.

This has been decided by the General Staff. Of the 687,000 of the first draft of citizen soldiery, approx

mately 200,000 have been ordered or will be ordered to National Guard divisions to fill up these commands to war strength. This eaves about half a million drafted men who will be trained in the National Army cantonments until February 1, when, if present plans of the General Staff are carried out, these men will be sen to France to undergo further training behind the trenches.

According to information ob-tained from high army officers, it is believed that two months' intensive training in Franco will fit the National Army men for service against the Germans. By January 1 more than 500,000 National, Guardsmen will be in France under Pershing. Added to his force of regulars and the 500,000 of the National Army, Pershing by February 1 will have under his command in France more than 1,000,000 men.

spring drive if the Teutons are not driven out of the territory they now occupy before that by Haig's invincible forward thrusts.

The only obstacle that might prevent the arrival of the big American armies in France by February 1 is the lack of ocean transportation. The United States Shipping Board, however, has assured the War Department that there will be enough ships to get the big expeditionary forces from the United States to French soil.

### AMERICA AS A FACTOR TO HASTEN WAR'S END.

BY ATLANTIC CABLE AND DIRECT WIRE-EXCLUSIVE DISPATCH.]

ONDON, Oct. 25 .- The war broke suddenly and caught the British nation unpresuddenly, but it will not eatch the British unprepared.

peace, pacifism, Boloism and a lot of other "isms" must be read in the light of events as they exist today in Europe, not on the basis of conditions as they are in America after six months preparation for war. Europe's viewpoint is not that of America and it is well that Americans should appreciate it. RECORD FACTS.

No peace prophecies are ven tured, but simply record facts and rumors which are flooding

and rumors which are flooding Europe.

First, there are a lot of people going to be disappointed if there is not an armistice by next April.

Second, Germany, through various representatives—frequently neutrals—is now maintaining consistent overtures to the various Allied beligerents. In several cases practically straight offers have been made, but generally the gesture is made through a third party. It is significant that every offer has originated with the Central Powers.

THE AMERICAN FACTOR.

THE AMERICAN FACTOR.

Third, every person who supports the idea of an armistice in the spring bases his belief on the supposition that by that time, America will have become a considerable military factor and that the Germans are too good business people to elect to continue the war without offering terms which will be acceptable to the Allies.

Though peace is the one subject uppermost in the minds of all Europe, it is studiously avoided, after the fashion of the poker player who guards a full house or a bob-tailed straight with the same idiotic empty expression. Peace making and THE AMERICAN FACTOR.

pression. Peace making and poker playing hold a lot in

poker playing hold a lot in common.

There is not a question that the Entente Allies expected to win a satisfactory peace in 1917, and laid their plans accordingly. Peace has been postponed for a number of reasons, the chief of which is the collapse of Russia as a military factor and the entry of America on the side of the Allies. Having expected peace, they began to prepare for reconstruction with hardly less effort than they prepared for war.

wants to draw out, but she still refuses to call on the last hand she intends to play.

PEACE GESTURE.

Von Buelow is the man whe made the peace gesture to France and Italy, which is indirectly rosponsible for the latest French political crisis. The story of this affair is that the French Socialists became embittered with Ribot since he declined to issue Stockholm passports and since they learned of Von Buelow's offer and Ribot's declination, on the ground that it was a peace trap. The Socialists then forced Painleve to drop Ribot.

That the terms of the offer are far different from Kuehlmann's, "never never," regarding the future of Alsace-Lorraine is evident from the fact that the Socialists had a majority of the country behind them on this issue.

A MARKED CHANGE. PEACE GESTURE.

A MARKED CHANGE.

A MARKED CHANGE.

Compared with all former offers, this latest suggestion of the enemy to Italy reflects a marked change. The activities of the Socialists there are not due entirely to discontent with ecnomic conditions at large, but to the fact that they have learned the terms of the offer.

Though the German game calls for considerable concessions in regard to Belgium, Alsace-Lorraine, Trentino, and Trieste, they are made only the price of compensating concessions from Russia. The Germans are showing the greatest energy in creating a satisfactory peace atmosphere in that country. There it is possible for them to negotiate openly. It is noticeable that in the last fortnight the power of the Russian extremists has been waning, but what has really happened is that the government has convinced the people it stands for "the defense of the country." speedy improvement in economic conditions and an early general peace.

In connection with the peace

arly general peace.

In connection with the peace discussion, there comes from Switzerland a report of an interesting conversation between Switzerland a report of an in-teresting conversation between a noted German statesman and a distinguished Swiss minister. "The trouble with this war." said the German, "is that it will be ten years after it is over before I can go to London, twenty before I can go to Paris and forty before I can go to Vienna."

the \$3,000,000,000 mark today and headed for the \$5,000,000,000 maximum with every indication
that by continuation of the reientless campaign the latter figure
would be realized when the books
close Saturday.

Although unofficial estimates from
the twelve federal Reserve districts
do not total the figure, officials tonight expressed the conviction that
subscriptions had passed the \$3,500,000,000 mark.

"Victory for the second Liberty

OF ATTACK ON AMERICA. Military Critic Warns Teutons

There is Little Chance of Hostili-tics Between Nippon and United States — Expects Settlement of Differences by Arbitration, [BY ATLANTIC CABLE AND A. P.] COPENHAGEN, Oct. 25.—Capt Von Salzmann, military critic and

far-eastern expert of the Vossisch ers that they no longer have the right to count upon a future war between Japan and the United States, which has become a fixed idea with the average German and a definite element in the govern element, the captain writes, must be eliminated for a long time at leas and Germany, instead, must coun upon Japan to enter into the Paris

in any anti-German post-bellum business war.
Capt. Von Salxmann takes his text from the recent speech in London of Viscount Chinda, Japanese Ambassador to Great Britain, in which he warned against German intrigue for the purpose of creating friction between Japan and the United States. The captain also refers to the negotiations at Washington of Viscount Ishii, head of the Japanese mission, to the United States. He says Japan and America, States. He says Japan and America, taking a lesson from the European conflict, apparently have determined it is best to settle their problems by arbitration and friendly agreement, rather than by costly hostilities, and that it looks as though these nations would come to an agreement regarding China.

gating the cost of ingredients and labor, and other factors in the baking industry, has submitted his report to Food Administrator Hoover.

While eventually the bakers will be brought under a Federal licensing system, there is no likelihood of such action by November 1, when the licensing feature of the food law will be extended to some lines of industry. The food administration is working on its plans for a standard weight loaf at a fixed price.

It is recognized that the only way to enforce the fixed standard weight and price will be by putting the bakers of the country under license. That will be arranged as soon as possible. A separate proclamation by the President will be required to extend the licensing plan to bakers, not provided for in the food law.

I CURE

and All Rectal Diseases

Without an Operation

For twenty-five years I have been curing diseases of the rectum and lower bowel. During that time my experience as hospital and railroad surgeon, as college lecturer and professor, has enabled me to develop a method that is superior to others. I cure without surgery and my patients are not confined in bed and seldom lose a moment's time from their business.

My method is not a "home cure" or a "correspondence treatment" but it is an application of skilled treatments administered under the most rigid antiseptic conditions in my office.

As you well realize by the condition in which you found me: I had suffered thirty-five years from bleeding hemorrhoids from which I found myself reduced in flesh to a point I could not attend to my business. From your treatment I am completely restored to health and strength. I gladly testify to your ability to cure this malady as I am satisfied beyond a doubt that I am completely cured. I will answer any inquiries for the benefit of those affilted likewise.

I take great pleasure in testifying to the effectiveness of your painless method of treating hemorrhoids. I am cured after years of suffering and now I am capable of doing my work in comfort.

Thousands of good, diligent, patriotic men and women want to buy Liberty Bonds. They know they ought to buy Liberty Bonds. Fortunately, they can subscribe for, and pay for Liberty Bonds out of their future earnings. By doing this, you fulfill the obligation to yourself as well as to your country.

Make saving a personal habit, as well as a patriotic impulse. Start it with the bonds, but keep it up. The Security Trust & Savings Bank has been for nearly 30 years the "school for thrift" in the city of Los Angeles. We have taught a hundred thousand people how to save, and their aggregate savings now in the bank are more than fifty million dollars.

The first step—you have to take it yourself—is to come in and open an account. Arrange an installment account to buy a Liberty Bond. Take that step—TODAY.

Many people are worrying themselves sick over the high cost of living.
War time with its excitement and hysteria is a trial to the strongest nerves. To those whose nervous systems are run down by overwork or worry, to those who are on the verge of neurasthenia, it is a time of danger. There is no tonle for the nerves that is not a tonle for every other part of the body. There is no form of debility that does not rob the nerves of nour ishment. The remedy therefore for nervous breakdown is a tonic that will build up the general health, revitalize the blood and enable it to carry to the nerves the elements that they need.

Dr. Williams' Pink Pills are an ideal tonic for this condition because they are non-alcoholic and neurasthenic patients should avoid alcoholic stimulants.

ASHINGTON. Oct. 25.—In a statement tonight, reviewing the world food situation. Food Administrator Hoover said the fight against the submarine would be won if the United State and Canada could stimulate production and effect economies so as to feed the Allies from this continent without sending a ship farther afield than the American Atlantic seaboard.

Ships, wheat and hogs are the great needs emphasized by Mr. Hoover. He said deepest concent has been caused by the fact that in spite of high prices this country's pork consumption had increased during the war until production has been outstripped; a situation that must be changed.

"If we discontinue exporta," Mr. Hoover added, "we will move the German line from France to the German line from France to the Grand line from France to the Atlantic seaboard.

"Pork products have an influence in this present world situation wider than one would ordinarily attribute to them. The human body must have a certain amount of fat; we must increase production of hogs if we are to answer the world's craving.

A doctor and two assistants boarded the merchantman and attended the wounded. The engineers had difficulty in repairing the steamer's engine and during the night the destroyer and the merchantman lost each other, but finally the steamer made port in safety. The wounded were transferred to a hospital in this city. Two of them belong to the gun crew and five to the ship's crew. The steamer was not hit below the water line, but her cargo caught fire during the engagement. The amount of damage has not been ascertained.

Following is the department's statement:

"The Navy Department is informed that the American steamship Luckenbach was engaged by an enemy, submarine on October 19. The engagement lasted from 7:35 a.m. until 11:40 a.m., and was broken off by the arrival of an American patrol vessel. The Luckenbach was hit several times but no serious damage was done to the ship. Seven of the crew of the Luckenbach and two members of the armed guard were wounded."

head off the flying Mensor at the plate. But the throw was wide and the game was over.

The Oakland players nearly tore down their clubhouse jubilating over the victory that knocked the Seals out of the lead. They kept pounding on the partition that separated them from the Seals and kept inquiring in loud and insulting tones how Jerry Downs and his gang liked the treatment they were getting from the "bushers."

Both Speed Martin and Chief Johnson pitched magnificently. Young Martin 'allowed only three hits during the long game. Two hits during the long game. Two hits were charged against him in the nine innings and one of these was a bunt by Schaller which Rod Murphy allowed to roll, hoping it would roll foul.

As the Seals have some good hits

As the Seals have some good hit-As the Seals have some good hit-ters in the line-up, Martin must be given credit for hurling a fine brand of ball. At no time did he show signs of weakening and in the last inning, after the sun had set, he turned on a lot of steam that pulled him safely over the last hur-dle.

BEAR IN PINCHES. Chief Johnson was hit oftener than Martin, but he was a bear in the pinches until Murphy put over that knockout punch in the tenth. Early in the game it was predicted that the team that made a run would win the game. It looked like a victory for the Oaks in the seventh, when they had Stumpf on third, Mitze on second and only one hand down. The squeeze play was tried, but Speed Martin popped the ball into the air and was an easy out to Koerner. Stumpf was nearly to the plate when Koerner caught the ball, and, with an easy double play in

### HIGH SCHOOL TO

TEACH ATHLETICS.

The Board of Education of Philadelphia has, following out President Wilson's suggestion, started courses of physical instruction for business men in the Central High School, one of the big high schools of that city. The instruction is under direction of Earl R. Yoemans and includes every phase of physical education, including boxing, wrestling and tumbling.

Frank Mellus and Ed. Houser are spending several days duck shooting on the Houser ranch near Blythe.

Tom Seaton, who has been recalled by the Chicago Cubs, has a hunch that he will be back on the Coast next season, but not as a member of the Los Angeles club. He thinks that the Cubs may turn him over to Portland in part payment for Hollocher. Tom was developed by McCredle, and went from Portland to the Phillies.

Amor Galloway, peppery Toller quarter of last season, has been reinstated and will make his first appearance this season, against the Saints, today, Coach Foster is undecided whether to use Galloway at half or quarter, and will probably start the veteran lation of the half-back berths.

The St. Vincent's team has not occupied much of the limelight so far this year, but is said to be a weight collection of scrappers.

NET LOSS IN SPORTS.

Football and basketball alone were profitable at Columbia University, last season. A total of \$42, 551.45 was needed to conduct the various sports at the big New York college and the net loss was \$1,157.77.

SAN GABRIEL GOLF.

Sixteen crack golfers will contend for the President's cup at the San Gabriel Country Club tomorrow afternoon. The successful eight of this group will meet the following Saturday in the final round of play. Last week thirty-two club swingers were in the elimination competition.

MOST IMPORTANT TRIAL. The forthcoming court-martial is regarded by high army officers here as being the most important trial, from a military standpoint, ever held in the United States. Its result is expected to be of far-reaching import in the matter of maintaining discipline among soldiers that may incline to be mutinous. The trial will be public and promises to attract widespread attention.

Turkain is the Botton the River Redenpois is on the Great in River Redenpois is on the Great River, Redenpois is on the Great River Redenpois is on the Great River, Redenpois River Redenpois R	ment for this district, which embraces all of Texas, that the government revenues for this fiscal year will far exceed those of any twelve-months period in the history of that department. This is due to the "floor" tax, which the government has imposed upon all liquors in stock, not only that held by saloon men, but by wholesale dealers as well.  When it became apparent that Congress was going to impose a heavy tax on spiritous liquors, practically every saloon man in Texas purchased enormous quantities of whisky and other intoxicants in the expectation that he would thus a wade the prospective tax, but the floor or stock tax which later was purchased enormously ended the wholesalers. Some idea of what this tax amounted to may be had when it is stated that in many instances saloon men through having added enormously to their stocks had to pay as high as \$3000 to \$12,000 tax each besides the other taxes that the government imposed upon them.  The price of drinks of whisky has been advanced since October 4, the date on which the new tax went into effect, from 15 cents to 25 cents to 25 cents and the government imposed upon them.  On top of these troubles to the saloon men is a renewel of the prohibition agitation in this State. The fact that Dallas county, including the city of Dallas, the most populous county in Texas, recently voted out the saloons, has lent encouragement to the prohibition agitation in this State. The fact that Dallas county, including the city of Dallas, the most populous county in Texas, recently voted out the saloons, has lent encouragement to the prohibition sentiment in this State. The fact that Dallas county, including the city of Dallas, the most populous county in Texas, recently voted out the saloons, has lent encouragement to the prohibition sentiment in this State is gradually growing and it is expected that within the next few months there will be large additions made to the dry territory.	ing of the death penalty upon each and all of them.  The negroes who played a whole-sale part in the riot are being held at Fort Bliss, where they will also be tried by court-martial. It is expected that the court-martial here will last several weeks, as there are a great number of witnesses to be examined, and the case will be gone into in all of its relations and details.  PERIL UNAPPRECIATED.  The sixty-three defendants were brought here from El Paso under heavy guard, traveling in a prison car, with fron-barred windows. None of them seemed to appreciate the possible penalty that they are facing. It is stated by army officers that during the stay of these prisoners in the stockade at Fort Bliss they spent their time in abusing the guards and fighting among themselves.  The court-martial will be composed of three brigadier-generals, seven colonels and three lleutenant-toolonels. Col. J. A. Hull, judge advocate, will conduct the prosecution, with the assistance of Maj. D. V. Supphin, assistant judge advocate. Maj. Harry S. Grier has been appoined counsel for the defendants.  COURT-MARTIAL PERSONNEL.  Following is the personnel of the court-martial: BrigGens. George K. Hunter, Camp Funston, Kan.; Joseph Gaston, Ninetieth Division, Camp Travis, San Antonio; R. A. Richards, Thirty-second Division, Camp McArthur, Waco.  Cojs. E. A. Miller, Third Field Artillery; A. C. Macomb, Fourteenth Cavalry; R. C. Cabell, Tenth Cavalry; S. R. H. Thompkins, Seventh Cavalry: James J. Hornbrook, Seventeenth Cavalry, and Charles J. Symonds, Sixth Cavalry.  The fact that the mutiny and murder with which these negro soldiers are charged ere committed while the United States is at war makes the alleged offenses much more serious, it is claimed, than they would be otherwise, If they are found guilty, there will be no alternative but to inflict the capital punishment, it is guarded. Gen. Francisco Murguia left Chihuahua city for Mexico City Sunday night, German Consul Ernest
Goeldner accompanied him on his
special train, it was said by a highly
reliable business man from the State
capital, who arrived here tonight.
The purpose of Gen. Murguia's
trip south was not known there,
he said, but there was a report that
Murguia had been transferred to

George F. Lauga, French military chaplain, who is a delegate in the United States of the French Protestant Committee, declared tonight in a talk before the national convention of the Christian church here. He declared that Europe would be forced to look to the United States to supply the material aid and men to further Christianity at the end of the war.

The convention today voted to add 100 missionaries to their present representation within the next five years.

RELIGIOUS RECONSTRUCTION. WOULD BAR CRIPPLED CHILDREN OF ALLIES.

(BY A. P. NORT WIRE)

HELENA (Mont.) Oct. 25.—That
the United States should close its
doors to the crippled children of the
Allies, was the sentiment expressed
today by several speakers before the
western conference of the National
Association of Child Welfare Workers in Tession here. Belief was expressed that the Allies are keeping
the physically fit children at home
and sending the cripples to the
United States. RELIGIOUS RECONSTRUCTION, [BY A. P. NOST WIRK.]

NEW YORK, Oct. 25.—"Moral and religious reconstruction of the world," from the Sunday-school viewpoint, will be the object of a special committee comprising representatives from all the Christian countries of the world, the appointment of which was recommended at a meeting of the Executive Committee of the World Sunday-school Association here today. The association has a membership of 25,000,000.

The committee also recommended

It is the opinion of Capt, Irwin that as soon as this first unit of the new National Guard has been organized and drilled to a fairly high degree of efficiency, a complete battalion will be formed in Los Angeles city and county. A new regiment is to be formed in the State and at least four companies must come from the southern section, Capt, Irwin believes.

"CARL LAEMMLE."

Remarkably beautiful and effective is the film, "The Crimson God," which is the first production to be made by the Romayne Superfilm Company, and which was given a private showing at the Little Theater on Wednesday evening. The subject of the film is almost entirely allegorical, but with the figure of the German Kaiser clearly indicated, the text being "A patriotic appeal to make the world safe for democracy." Liberty, the spirit of war, His Satanic Majesty, truth, love, all are personified, and while there are no actual battle scenes, and while the story, if such it may be called, deals for the most part with abstractions, the concrete is artistically indicated, especially in the person of a democratic ruler fighting for the truth, and a lively thread of interest is the result. The photography is marvelously beautiful, with individual groups of particular attractiveness. That the picture depicts the Kaiser as going to hell clad in his heavy winter clothes is a matter of minor satisfaction. ing about the country fishing, they day, contemplating fishing, they went up into one of the canyons where flows a beautiful stream.

court was disturbed yesterday when Mrs. Paul Zehr voiced a suspicion that the death of baby Bert Fuster ought to be investigated. The court sent Mrs. Zehr and Louis Fuster, the father of the child, to Coroner Hartwell. Mr. and Mrs. Fuster are parties to a divorce suit and the custody of Bert had not been decided. Mrs. Zehr received the baby from Mrs. Fuster one day and she told the Coroner that her heart went out to him when he smiled wanly at her. Bert was emaciated and dirty, she declared. In short, his appearance was so much against him that Mr. Zehr did not care to have him eat at the dinner table, but fixed up a place for him at a chair.

Mrs. Zehr devoted an entire day to cleaning up Bert, and she watched his development from day to day until she learned to love him. Then came the parting. The mother annoyed Mr. Zehr: her demeanor was not pleasant, he says, and Mr. Zehr decided to have Bert returned to her.

A week later Mrs. Zehr dreamed that a black cat sat on her chest and was drawing the life from her. She awoke in a fright and declared that the black cat forefold a calamity. Several days ago Mr. Fuster called her up on the telephone. "Bert is dead," he told her. So this was the story the Coroner heard, a circumstance Mrs. Zehr could not comprehend. "The boy died of diphtheria," he told Mrs. Zehr.

The only relic she has of the lad is a pair of baby shoes.

"I will have them framed," she said, "and I will hang them in my bedroom."

And she isn't the only one of her sort. The past month has given us many days when the thermometer ranged from 85 to close to the 100 deg. mark. Yet on the hottest of these days Los Angeles women have promenaded Broadway wearing heavy winter coats, furs suited for the polar re ions and velvet hats. we readily concede that the inward and spiritual merit is the quality by which the worth of a profession must eventually be judged, at the same time the outward and visible sign is valuable testimony in the presentation of the case. It won't do us any harm, and it may do others a lot of good, to carry around with us some public sign of our private convictions and sentiments. Especially when these are connected with so, lotty an object as devotion to flag and country. More especially when that country is undergoing the terrible test of war.
We, in America, have been accustomed

to the wearing of badges and buttons and ribbons and to similar decorations on festival and public occasions. To some super-cilious foreigners, indeed, this American propensity has been a theme for cheap satire and foolish ridicule. But these foreigners must stand silent and abashed when they recognize that the same spirit previously manifested in the tag and the button and the coat-lapel-flag is the source of the noble sentiment, through American co-operation, destined to save for them their liberties from the most vigorous and virulent autocracy ever arrayed against

Even in our own land some superior people frown upon the badge and flag propa-ganda as something quite beyond the mark in our conduct of hostilities against so efficient an enemy. These things count enormously. They give expression of the feelings of the heart and are mute witnesses to the thousands who see them on the streets, to whom in no other way the individual can appeal, of the patriotic fervor of the man or woman who displays them. Their psychological effect cannot be overestimated.

The Times has never had any sympathy with those who scoff at the enthusiasm of human nature, even when somewhat extravagantly rendered. WAR FOOD AND WORKERS,

"Give us men and we will feed the world. We want to do it and have the soil, the rolling stock and the know how." The above is quoted from an article writ ten by a New York State farmer in the Literary Digest.

It has frequently been said that the State of California could do the thing (feed the world) if all the available land were culti vated. The same reason is given for its not being done—lack of farm workers and prohibitive wages for what are available. The truth is that Americans for many years past have not been ranch laborers. Call fornia never had enough farm workers to develop the resources of the State and, now that the war is on, the conditions are

If this war is to be won it will be by putting a force against the enemy suffi-ciently strong to overcome them in battle. They have first to be conquered, then told upon what terms peace may be had. To do this requires men, money and supplies We have the men, but even if we have the money it is of little use if we cannot buy the prime necessity—food—not only for ourselves, but for our Allies; not only for our soldiers and sailors, but the millions at home who must eat also.

This is not possible without sufficient man power on the farm. The farmers of New York, Ohlo and other States sayand if they do not know, who does-that it can be easily done if they have the indis-pensable man power. This can be had if we choose to get it. Men from other coun-

But just now we are engaged in a ter rible war that must be won at all costs Food is an indispensable necessity. It can be produced. Old men, women and school children will not be successful. The sav ing of food by all the people practicing selfdenial is constantly urged by Mr. Hoover. The substitution of one kind of food fo another, the attempt to regulate the market price, etc., all help. But the refusal to produce the entire amount for all concerned because the means necessary are not what we like is like a man refusing to put out a fire that is burning his home because h does not like the brand of the hose he has

Enough Chinamen can be imported to do the work necessary to produce all the food that must be had to win this war. It is little enough for China to furnish the necessary laborers to take the place of our fighting men. They would be subject to orders the same as an army of soldiers. War organizations are almost withou number, but the people should rise in their might and demand that sentimental notions and union-laborite dogmas be brushed aside. To stand in the way of food production at this time is to oppose the war as much as by being a slacker or a pacifist. Get the workers—find the producers—put man power on the soil! That should be the slogan. Open the door to Chinese help—that is the thing to do!

# Have you lost your Make-Believe?

Come on-let's go!

We'll see a picture-play—and a good one.

We don't even know the title of it-we don't happen to care

We do know a theatre that advertises under the Paramount and Arteraft trademarks—and we know that means "famous stars superbly directed, in clean motion pictures."

# Paramount and Arteraft Pictures

What an illusive thing it is you are paying for and giving your time to! Phantoms dissolving to nothing at all when the light snaps off.

Is it? It's nature, sunshine, laughter, love, life!

What do you really see as you sit there in your chair unconscious of others in their other chairs all round you?

Not the illuminated screen, not the beam of brilliance from the camera up above -no, not the moving lights and shadows of the photograph itself-not the picture at all. but the story the picture tells.

You live it.

For that one hour or two you live a different soul—likely in a different land, quite possibly a thousand years ago. Maybe you half realize after a while that your tongue is dry. Sometimes your eyes grow moist-with sympathy or mirth, no matter. You don't know it. You've lost yourself-and good riddance for a bit.

You are living the romance that makes this work-a-day world well worth while after all. You are adventuring, struggling, over-coming, avenging, forgiving, laughing, hating, loving.

And when the story ends, you walk out into the blazing real world—but you are for quite a while a good deal younger and a sight more human!

That's you, isn't it? There are fifteen million others just like you in that one thing. But there are twenty million others who are missing it, and this message is not to you at all, but to them.

Of course you want to see Paramount and Arteraft pictures—the best the motion picture art affords. Paramount pictures give you the motion picture in all its varied forms-great feature plays, and stars, master comedies, weekly magazines and travel pictures. Artcraft pictures give you the feature play developed to its apex-famous stars of screen and stage in pictures worthy of their talents.

If it happens that the theatre around the corner has not yet gotten around to showing Paramount and Arterast pictures-it will, if you ask for them. Because the motion pictures bearing those famous trademarks -Paramount and Artcraft-are now available for every good motion picture theatre in the land. They are produced for you-see them

This would mean that Chief Bert Reynolds of the Venice police department, who was given extensive control over the amusements, games, concessions, rooming-houses and cafes by a series of three grasolutions presented by Trustee McDonald at last Monday's meeting, would still be controlled by the board, instead of virtually being the dictator of the city until after the election or until a Trustee is named by the Governor or the Attorney-General.

Although the meeting of the Trustees adjourned from Tuesday morning to this morning was to have taken place, no attempt was made by the two remaining Trustees to get together, it seeming to be a foregone conclusion that there would be no quorum, hence no meeting.

THE REASON WHY.

The reason why the Venice rooming to the open or dinance, supposed to

THE PRESIDENT

The last stormy meeting of the Trustees, was not printed in a local paper yesterday, has come to light. It was because the ordinance had never passed its first reading three or the reading was begun because the language of the ordinance was not deemed best to be read before the mixed audience present. In the general excitement of the last meeting of the board, when Mayor J. J. Lewis and Trustee Myron J. Carr resigned, the ordinance was passed for what was supposed to be the second reading, but after the clerk had been instructed to give it to the paper for official printing, the error was discovered and the ordinance held up.

When he learned last night that the ordinance had not been printed. Chief Bert Reynolds of the Venice police department immediately declared that he would start an investigation. The real reason of the delay, as explained above, was made public today by Trustee William G. Luiz.

KHLLED IN AUTO.

Word was received here today of the death of Matthew Howell, 52 years old, of Long Beach, who was accidentally killed last Wednesday when a rifle he was carrying with him in an automobile was discharged. The bullet passed through his chest and he died almost instantly.

The accident occurred near Whiterlver, Arizona. The body will be returned to this city. The funeral services will be conducted at the Edgar McFadyen chapel at a date to be set tomorrow. Rev. Henry Kendall Booth, pastor of the Congregational Church, will officiate at the services. Mr. Howell leaves a daughter, Miss Julia Howell, head of the music department of the Redondo Beach public schools; a son, Bernard Howell, now with the selective army at American Lake, and a widow, residing here.

MORE THAN MILLION. MORE THAN MILLION.

Long Beach subscribed more than \$1,000,000 to the second Liberty Loan, it was announced by the campaign officials here tonight, and the outlook to secure more than the minimum quota of \$1,440,000 was declared to be bright. Prospects for the fulfillment of this city's quota were declared to be encouraging following a patriotic rally and programme staged in the Municipal Auditoriuhm tonight and attended by several thousand persons.

INCREASE IN ATTENDANCE.

There was a perceptible increase in the afternoon audience yesterday. Many people are realizing that Mr. Sunday's meetings are drawing very near to their close, and that although he has been speaking daily and nightly for more than seven weeks, they have not yet taken the opportunity to hear probably the greatest evangelist modern times have produced. This accounts for the increased attendance in the afternoons, and the fact that nightly many hundreds of people are unable to gain admission to the tabernacle. "His Name Shall be Called Wonderful," Isaiah kxi16, was the theme of Mr. Sunday yesterday afternoon. He reviewed the many wonderful aspects of the life of Jesus, and declared that the originality of Jesus is one of the proofs of His divinity; that the human mind cannot create anything, in an absolute sense, but can simply build out of material that has already been created in some form. INCREASE IN ATTENDANCE.

there was a great real, and the sawdust trail.

One of the striking features of the evening meeting was the attendance of a large body of soldiers of the Coast Artillery, headed by their band, which played several selections and won ovations of applause.

When the invitation to hit the trail was given, a score or more of these men in Uncle Sam's uniform marched down the sawdust-strewn path, and soon there was a full line in action, until 164 of the soldiers had marched to the front and taken Billy Sunday's hand. There were also 127 civilian trail hitters. Chaplain Griffin of the Coast Artillery gave the closing prayer. At the afternoon meeting there were fifty-six trail hitters, the day's results bringing the total for the campaign up to 25,001.

He has been a minister of the gospel for almost a half century, served during the War of the Rebellion in a Pennsylvania regiment, and has the proud record of having participated in forty-two battles and skirmishes during the Civil War, coming out without a scratch.

"I had the unusual experience of commanding thirty-five men in a pitched battle with Gen. John S. Mosby, the guerilla leader, in the Potomac campaign, but he did not know how few men I had, and I didn't know how many he had," said the clergyman, winking slyly.

It was a moral courage meeting. The carpenters were invited to be o hand with sufficient courage to kee the millworkers from throwing u the sponge and going back to work The striking millworkers declare last night that unless the organizer who have been mismoreter than

last night that unless the organizers who have been mismanaging their strike were thrown out and replaced by a committee selected from the ranks of the local Millworkers Union they would break their strike and return to their jobs.

The meeting was called rather late in the day as is evident from the fact that practically all of the mechanics who struck at the Hammond Lumber Company mills have either gone back to work or have either gone back to work or have apoken for employment next Monday morning.

Just how the Carpenters' Union can dip into the millworkers strike without getting "in wrong" with the United States Department of Labor is more than the mill owners can is more than the mill owners can figure out. A few weeks ago, in return for an increase in pay, the unionized carpenters signed papers with Federal mediators, agreeing to make no demands upon their employers and interfere in no way with production during the next nine months.

production during the next nine months.

Sixty union carpenters who were working for Leonard & Peck struck on five jobs the other day, charging that the contractors had violated an agreement with Federal mediators by not paying \$5 a day on new work. For a short time the contractors had a lively time of it. The strikers went out and picketed the jobs. At a garage which is being built at No. \$42 South Hope street, the strikers went in and started to rough things up a bit. C. L. Peck, president of the Master Builders' Association, sent in a call for the police, but before the patrol wagon arrived the strikers had scattered and there was not a rufflan in sight.

Court Says that Question Involved in Action Over Property is One of Law and not of Fact So Gives the Attorneys One Day to Show Need of New Hearing.

The argument for a new trial in the case of C. E. Miller against the Lergo Land Company, involving a judgment of \$163,000 in favor of the former, was halted by Judge Taft, yesterday, who presented a nut for Attorneys Newby and Mesery to Crack. The argument promised to run for several weeks, and as Judge Nichol of Tuolumne county tried the suit, it was necessary for Judge Taft to hear read a large part of the testimony.

The court stated that his conclusions are that it is a question of the consideration of the law and not a question of fact, and he gave the attorneys until this afternoon to convince him whether a new trial should be granted or the motion denied.

The court also stated: "If the contract is good under the law, it is bad in finance."

Mr. Miller's contract with the company provided that it should run ten years, in which time he agreed to sell the entire acreage near Bakersfield. The tract comprised 1000 acres. He was to have the first payment on the lots entire, also the second payment. The balance was to be prorated. He was to receive \$50 an acre and the company \$100. Under the contract t

ers and mechanics of Los Angeles, who belong to the union, were addressed by a spellbinder from Tacoma. He went before them with a roseate plan for unionizing everything in Southern California before July 1, and placing the whole bunch under American Federation of Labor control.

He explained to them how they, by organizing and then striking, could force wages up from \$3 and \$4 to \$5 and \$7, and in driving home his remarks he cited the wages pald at Tacoma, Stockton and Taft. He applied oilfield wage schedules to conditions in Los Angeles.

The meeting was largely attended, there being blacksmiths, machinists, sheet metal workers, automobile repair men, representatives of all the shipbullding trades, and the structural iron workers. One of the spellbinder's pet ideas is that of organizing the automobile mechanics at once. He declares that the business of repairing autos is one that can be easily and quickly tied up by unionization.

Last night this same organizer, the stimestic sections and the sections of the spelling and the same organizer.

loyal to the empire as the Americans are to their country. I have here a little example of Canadian spirit of patriotic self-sacrifice and also a practical illustration of the fact that soldiers engaged in deadly work are also sincerely religious. A Canadian dispatch rider was given a message to take to headquarters. The whole day's operations depended upon the safe delivery of this message. Lifting his head, the soldier said: 'Oh, God, I don't give a damn what becomes of me personally, but carry me through for England's sake.' I call that religion and patriotism well combined, don't you?" was Capt. Bennar's comment. ON CITY'S TIME. Firemen while on duty at the fire ations will not be permitted to go ly salaries. The great number of unsolicited testimonials on file at the Pinkham ing has been particularly brisk the past few days. Capt. C. L. Bonnar, in charge of the local office, says that he attributes this to the fact that the Canadian conscription law has gone into effect, and, as this law applies to Canadians in the United States, he feels that many are now seeking to join the colors as volunteers. Each week numbers are being sent to the front and Capt. Bonnar is confident that this week's contingent will be the largest yet.

"Canadians are very patriotic," said Capt. Bonnar. "They are as
